

BBS-PANEL

10" BOARD & BATTEN WALL PANEL

PRODUCT OVERVIEW

A newly developed product, this concealed fastener wall panel is extremely popular in the residential market.

Used for siding on homes, barns, garages, or any time the classic appearance of Board & Batten Siding is desired without the need for ongoing maintenance. It is especially sharp when combined with wood, stone, or other natural materials.

This panel is embossed with a wood grain pattern to add even more of a life-like wood look.

CERAM-A-STAR®
1050 PAINT SYSTEM
WITH LIMITED LIFETIME WARRANTY

Designed exclusively for the coil construction industry, CERAM-A-STAR® 1050 is the industry's strongest and best-performing SMP paint system. The two-coat CERAM-A-STAR® system, using our high-performance primer, provides exceptional durability and offers superior resistance to moisture and UV exposure, with excellent flexibility and abrasion resistance. The unique and highly durable topcoat provides the best gloss retention and color stability of any SMP product. For gloss retention, resistance to color fade, formulation and durability, there is simply no comparison.

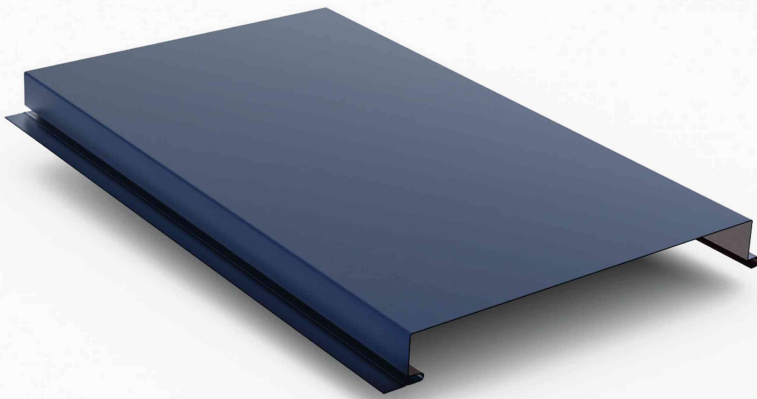

30+ COLORS IN-STOCK
standard, textured, wood grain, & stone

THE UNIFORM DIFFERENCE

Every order is manufactured from premium materials exactly to your specifications. After the panels are formed, they are given a protective wrapping and shipped in wooden crates to keep the panels clean throughout the delivery and installation process.

FWC-PANEL

**1½" FLUSH WALL
COMMERCIAL PANEL**

PRODUCT OVERVIEW

Commonly installed vertically, this panel is high performance cladding/siding for commercial applications, including store fronts, office buildings, or retail spaces. Available with a wide selection of colors and patterns, this panel creates a nice surface for high traffic locations.

This panel is similar to our 1" soffit/wall panel (FWS-PANEL), but is more durable and suited for longer spans. It is available as smooth, inverted plank, with beading, or double fluted.

FWS-PANEL

**1" FLUSH WALL & SOFFIT
COMMERCIAL PANEL**

PRODUCT OVERVIEW

A well known product in the commercial metal building industry, the FWS-PANEL is a proven soffit solution. Commonly used for eaves, it also works well installed under canopies for gas stations, banks, hotels, and more.

A proven soffit solution, this panel also works well as a wall panel. It is available as smooth, with beading, or perforated.

HIFORM-324

3" TRAPEZOIDAL RIB STANDING SEAM PANEL

PRODUCT OVERVIEW

An outstanding commercial panel, the HiForm-324 has proven to be the longest lasting metal roof available. Ideal for roofs with pitches as low as $\frac{1}{4}/12$, this panel includes a factory applied sealant and is mechanically seamed in the field for long lasting durability.

This panel is popular in commercial metal buildings such as warehouses and manufacturing plants. It is not ideal for applications with dormers, hips, and/or valleys.

PBU-PANEL

**3/4" U-PANEL
COMMERCIAL PANEL**

PRODUCT OVERVIEW

This panel is a universal panel, used for siding, roofing, soffit, liner panel, and accent walls. Providing a higher end look than typical G-Rib, this exposed fastener panel also has adequate flat areas for conduit and other mechanicals. Made with 26 gauge metal, it offers superior durability when compared to most panels.

Available in lengths up to 50' long and in 20+ in-stock colors.
